March is Women's History Month, and it is important to remember that at one time we had access to very little of our history. Thanks to Molly Murphy MacGregor, Mary Ruthsdotter, Maria Cuevas, Paula Hammett, and Bette Morgan's great work and lobbying skills, on March 12, 1987 the celebration became official when Congress passed legislation designating March as Women's History Month in the United States. The theme for 2019 is “Visionary Women: Champions of Peace & Nonviolence.” Go to www.nwhp.org for a listing of all nominees and additional information.

On the morning of Friday, February 22, a group of children and teenagers ranging from 7 through 16 from organizations including Youth vs. Apocalypse (https://350bayarea.org/youth-vs-apocalypse) and the Sunrise Movement (https://www.sunrisemovement.org) went to Senator Dianne Feinstein's office in San Francisco to ask her to vote for the Green New Deal. When I saw the interaction between them on video I was disappointed in Senator Feinstein. These young people were there to express their concerns and encourage her to vote for the New Green Deal, and they did not get a fair hearing.

What rattled me the most was when she told them (and I quote from the video), “I've been doing this for 30 years and I know what I'm doing.” All I could think of was that it's been over 30 years since the first Earth Day, and where are we? We need to listen to our youth; the powers that be are throwing our youth's future away, in my opinion. I want to encourage everyone reading this to watch the interaction for yourself and see what it inspires for you. The video can be seen on www.youtube.com/watch?v=2EfHOAZg3xc.

I want to invite you all to our monthly meeting at Round Table Pizza on Guerneville Road (at Marlow), Santa Rosa. We are going to be showing a 27-minute film, “The Legacy of Mary Ellen Pleasant,” starring Susheel Bibbs. Pleasant was an abolitionist and successful Gold Rush entrepreneur. She was a free woman of mixed race who dedicated her life to equality for African-Americans. From helping with the Underground Railroad to suing for the right to ride on segregated streetcars in San Francisco, and a prominent Sonoma County rancher, Pleasant seldom rested. The pizza is on us; see you at 1 p.m. Wednesday, March 20th, the first day of spring.

'Yes Means Yes' Law

California is the first state to create the ‘YES Means YES’ law encouraging and enforcing affirmative consent. This law is designed to create a standard for consent and sex including ‘empowerment programming for victim prevention, awareness raising campaigns, primary prevention, bystander intervention, and risk reduction’ on college campuses. This is a big step in a positive direction for consent-education.

The law approved by California Governor Jerry Brown in 2014 states that, ‘Affirmative consent means affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent.’
